26-50
GA450M

51-75
GA451M

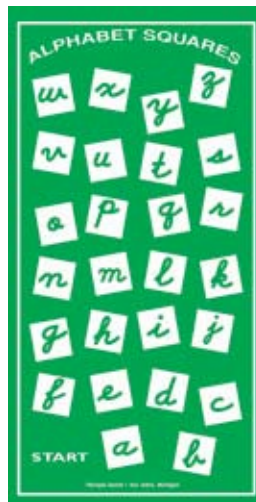

76-100
GA452M

These unique numbers in a circle from one to a hundred offer limitless opportunities for fun and teaching from simple counting to number recognition. Several ways to add, subtract and multiply by simply stepping on the numbers (i.e. three steps to add to #9 (3 + 6 = 9) etc. Numbers are not in order but at random - yet only a step apart. Can also be used as a bean bag toss game by tossing bean bags on the numbers to get the highest total or to get specific numbers. Shipped Small Package in a storage tube.

Alphabet Squares

\$31⁵⁰
LIST

The ultimate teaching tool and it's fun too. The entire alphabet in step on squares. Teaches letter identification, balance, awareness and provides fun spelling simple words by three, four and five steps. Race through the alphabet forward and backward. Stand on letters called out by the teacher. Also great for use with bean bags - try to spell out words by tossing the bean bags on the letters. Countless ways to use the mat - 4' x 8' on heavy vinyl - rolls up to store in the shipping tube. Ship Small Package.
